

TAKE YOUR HEALTHCARE CAREER FURTHER AS A SPEECH-LANGUAGE PATHOLOGIST.

Speech-language pathologists (SLPs) work with people of all ages, from newborn babies to older adults, helping them with communication and swallowing problems including:

- stuttering
- communicating in social settings
- literacy
- understanding what is heard
- memory and problem solving
- feeding and swallowing

SLPs are in high demand.

PURSUE A MASTER'S DEGREE IN CLINICAL SPEECH- LANGUAGE PATHOLOGY

FIND A PATH TO BECOMING AN SLP THAT WORKS FOR YOU.

IN-PERSON FULL TIME

If your undergraduate degree is in Communication Sciences and Disorders (CSD), we invite you to pursue your MS in Clinical Speech-Language Pathology through the two-year program on our Flagstaff campus.

If your undergraduate degree is **not** in CSD, we invite you to explore our Leveler Track, which takes only one extra semester, also offered in Flagstaff.

SUMMER TRACK

Our four-summer (38 month) part-time summer track program is available to in-person students in Flagstaff and Yuma and is ideal for working professionals, including SLPAs and SLTs.
